

The September Newsletter is on the website [www.aspereno.org](http://www.aspereno.org)

Kicking off our program year will be David Swider of Sub-Hub speaking about On-Screen Take-Off and On-Line Planrooms. This was a popular program last year and if you missed it, plan on attending. If you attended the similar program last year you will get another perspective and added information. David has knowledge of a wide range of products and techniques.
